

Working Safely

IIRSM & CPD Approved - 4 CPD points

Working safely is in the interest and concern of all staff, both employers and employees.

Health and safety is one area where the law places specific duties on employees. Knowledge of where this is applicable and to ensure that it is adhered to is vital to protect individuals and businesses.

Many employees not observing Health and Safety laws and not adhering to safe systems of work can potentially cause injury or harm to themselves and others. The physical, mental and financial burden of these accidents can have a huge impact on themselves, their families and their colleagues.

The course covers a wide range of topics including fire safety, asbestos awareness, working at height, COSHH, PPE and electricity. It also covers methods for improving safety performance and methods of protecting the environment.

This course is a great introduction to health and safety with many examples related to the construction industry and is ideal for a new employee.
